Recent Experience

2022–
Present **Interim Outreach Coordinator**, *Delgado Community College*, New Orleans, LA

Recruiting, advising, and post-college placement of Delgado CMIN, ADOT, and Cloud Computing students; aligned with the goals of the Carl D. Perkins Grant.

- Advising students for successful completion of their degree programs.
- Participating in college-wide recruitment events, informing prospective students about academic and extracurricular technology opportunities at Delgado.
- Collaborating with colleagues to plan & implement activities & processes that help Delgado students achieve their professional potential and academic goals.

2020–
Present **Adjunct Instructor & Tutor**, *Delgado Community College*, New Orleans, LA

Teaching courses and providing tutoring for students in Administrative Office Technology and Computer Information Technology Departments.

- Taught CMIN 203 (Logic and Design) and CMIN 216 (Web Foundations I) during the Summer 2020 term, CMIN 203 and CMIN 214 (Introduction to C++) in Spring 2022.
- Supporting students across departmental curriculum in the tutoring capacity.
- Working with colleagues to ensure student retention and success.

2020–2021 **Teacher**, *Riverdale High School*, Jefferson, LA

Delivered college, career, and technology instruction to high school students. Concurrent completion of the TNTF teacher certification program (High School Mathematics).

- Prepared 12th grades students for the ACT WorkKeys and ACT Tests.
- Successful implementation of hybrid (remote and in-person) instruction during COVID-19 pandemic.
- Founded and sponsored the Riverdale Extracurricular Computer Club.

2018–2019 **Training Manager**, *Anudip Foundation*, New Orleans, LA

Delivered digital and professional skills training to populations seeking first-time digital economy employment.

- Established relationships with clients and staff at Odyssey House Louisiana and Orleans Parish Day Reporting Center.
- Trained over 50 individuals, with over 10 successful placements.
- Developed learner-appropriate curriculum and plans for a sustainable communities of learning.

2016–2017 **CTE Instructor**, *Abraham Lincoln High School*, Denver, CO

Denver Public School Career & Technical Educator, delivering Computer Science topics. Established student radio station, implemented project-based learning, and participated as an advisor to the ALHS Colorado Technical Students Association chapter.

- Instructed Web Design course featuring HTML, Javascript, CSS, and Github.
- Provided Exploring Computer Science course including server administration, virtualization, media production, and streaming technologies.
- Delivered a survey course called "Digital Pathways" to English Language Learners (circuitry, robotics, visual programming languages, web design).
